¹Sample payment and Annual Percentage Rate (APR) are based on a \$1,121,250 30-year loan with 36 monthly interest-only payments followed by 324 monthly principal and interest payments and no prepayment penalty. At the end of the 3-year initial fixed rate period, your initial rate adjustment will be based on the then one-year CMT rate plus margin referenced above, not to exceed 2% above your initial fixed rate. Annually thereafter, your rate will adjust based on the then one-year CMT rate plus margin referenced above, not to adjust more than 2% per annum, and a lifetime cap of 6% above your initial fixed rate.

²Sample payment and Annual Percentage Rate (APR) are based on a \$1,121,250 30-year loan with 360 monthly principal and interest payments and no prepayment penalty. At the end of the 5-year initial fixed rate period, your initial rate adjustment will be based on the then one-year CMT rate plus margin referenced above, up to a maximum 5% per annum. Annually thereafter, your rate will adjust based on the then one-year CMT rate plus margin referenced above, not to adjust more than 2% per annum, and a lifetime cap of 5% above your initial fixed rate.

³Sample payment and Annual Percentage Rate (APR) are based on a \$1,121,250 30-year loan with 360 monthly principal and interest payments and no prepayment penalty. At the end of the 7-year initial fixed rate period, your initial rate adjustment will be based on the then one-year CMT rate plus margin referenced above, up to a maximum 5% per annum. Annually thereafter, your rate will adjust based on the then one-year CMT rate plus margin referenced above, not to adjust more than 2% per annum, and a lifetime cap of 5% above your initial fixed rate.

*Interest Rates and Annual Percentage Rates (APRs) are accurate as of July 20, 2020 and subject to change without notice. Rate, points, and APR may be adjusted based on several factors including, but not limited to, property location, loan amount, documentation type, loan type, occupancy type, property type, loan-to-value, and your credit score. Your final rate and points may be higher or lower than those quoted based on information relating to these factors, which may be determined after you apply. The APR is the cost of credit over the term of the loan expressed as an annual rate. The APR calculations above are based on the current 1-year CMT rate (0.150%) as of July 15, 2020, plus the stated margin and a total fee estimate of 2.00% (1.00% origination fee, underwriting, processing, appraisal, title and escrow fees). Loan amounts exceeding \$1.5 million will require two appraisals. All appraisals will require an appraisal review. For TIC properties, Bank of San Francisco must review and approve the TIC Agreement for the building before close of escrow. The interest rate includes a ¼% discount for establishing an ACH auto-payment from a Bank of San Francisco deposit account. Payments shown do not include amounts for taxes and insurance. Actual payment obligation will be higher. For adjustable rate loans, after the initial period, rates and payments are based on index plus margin. For interest only loans, the initial payments do not include principal.

All applicants are subject to credit approval by Bank of San Francisco.
